Welcome

We are delighted to introduce you to Green Team Interiors and the benefits of living plants.

At Green Team Interiors Limited we are positively passionate about the power of living plants in the workplace. We specialise in the design and supply of interior plant displays backed up by our high quality guaranteed plant care service.

In addition to looking fantastic, our plant displays can help to:

- ✓ Decorate and enhance
- ✓ Reduce stress levels
- ✓ Increase productivity and reduce absenteeism
- ✓ Promote a positive company image

We are an award winning member of Plants@Work, our industry's association.

Let us help you to transform your premises and give your employees the benefit of a healthier environment.

The Green Team Experience

Outstanding Customer Care

The Green Team Interiors vision and culture have developed into a team-wide commitment to ensuring exceptional customer care. We believe delivering extraordinary customer service should be the norm, not a pleasant surprise.

Relationships are Key

Good relationships are vital to continuing the success of Green Team Interiors. It is a commitment to the creation and development of sustainable relationships across the business.

Professionalism

We have the horticultural design, customer service and business skills and experience to do our jobs well and the commitment, determination and attitude to ensure that we deliver.

The Power of Plants

Pricing Options

Rental & Maintenance

Our popular rental option incorporates a comprehensive, high quality maintenance service including free replacement of any plant which fails to thrive.

Outright Purchase

You may prefer to purchase the plant displays. This option is available with or without our Maintenance service.

Maintenance Only

All the benefits of our fortnightly maintenance service for any displays owned by your company.

Short Term Hire

We can also offer bespoke solutions to provide plant displays for short term requirements. From a few days, to a few weeks, our team will maintain as necessary.

Sustainability: It Matters

Our Attitude

As a company, we are committed to supporting the sustainability of the built environment. The use of living plants in the workplace is an integral part of positive environmental management. We consider and minimise the environmental impact of our actions, from waste management through to recycling.

Our Plants

Our plants are sourced from growers whose propagation and growing methods are both sustainable and environmentally sound, including water recycling and use of glazing panels for heat retention, thus cutting fuel costs.

Our Planters

Our planter manufacturers have an excellent sustainability record. Often we use UK-produced Advanced Composite planters which are made from recycled glass fibre matting. We are also proud of our Upcycling service, offering refurbished planters for a cost-effective, sustainable alternative.

If you would like a copy of our sustainability leaflet, we'll be glad to send you a copy!
